

Big Data, Public Management and Governance Conference

-Call for Papers-

Dear colleagues and friends of EURA,

We are happy to announce the Big Data, Public Management and Governance Conference at Shanghai Jiao Tong University, **1-2 June 2019**. The **deadline for abstract is 15 February 2019**.

The aim of this conference is to curate leading research on how public management and governance are being transformed and will be impacted by developments in big data and artificial (machine) intelligence systems. We are specifically interested in papers that advance our knowledge about how big data technologies are being designed, deployed, implemented, and evaluated to transform urban planning, public policy processes, organizational and program management, citizen engagement, governance mechanisms, and public institutions in cities.

The China Institute for Urban Governance and the School of International and Public Affairs of Shanghai Jiao Tong University in collaboration with Bocconi University, and Queensland University of Technology, will co-host this Big Data, Public Management and Governance Conference on June 1st-2nd, 2019 in Shanghai Jiao Tong University.

You can check the full Call at <http://ciug.sjtu.edu.cn/Web/Show?w=37&p=3&f=4029> .

Please share the information with your colleagues and friends and we are looking forward to receiving provocative and interesting proposals. Hope to see many of you in Shanghai next June.

Best regards,
China Institute for Urban Governance
Shanghai Jiao Tong University
