Topic

'Cities without limits' is the topic of the next conference of the European Urban Research Association (EURA 2011) organised in cooperation with Centre for Strategic Urban Research - formed by University of Copenhagen and Aarhus School of Architecture and funded by Realdania Research and University of Aalborg.

The conference will be held in Copenhagen 23rd – 25th of June 2011.

Colleagues from Europe, North America and from across the world are warmly welcome!

Core questions

How to understand the urban as sites of regional and global relations?

How to govern and plan cities dominated by trans-local relations?

What is the good life in Cities without limits?

How do we meet the environmental challenges of expanding urban relations?

AARHUS SCHOOL OF ARCHITECTURE
